## XI. Superintendent's Report

It has been a very busy time as spring has arrived!

Our students are working diligently to enter into the final stretch this year. Students began working on sample tests for MCAS online this week. Today we practiced having our two largest classes - all fourth graders and all eighth graders online testing simultaneously. The technology staff all pitched in to be sure that devices were ready and protocols were followed. Despite being a practice session, the students took this very seriously. Thank you to all administrators and staff members for such solid preparation for this event. Grade 10 students completed their ELA testing last week. This testing is not yet available online.

We have had very successful student trips for DECA, NASA, and Student Council groups. Academically and in the community, our students continue to be recognized for their achievements.

Our Character Assemblies and School-wide celebrations at NES and Balmer this week gave us a chance to celebrate students as they demonstrate core values and social growth, as included in our strategic plan. As we strive for academic excellence, we want to support our students as growing members of our community.

Next week, we will welcome 10 students from China. They will be staying with families in the community and shadowing students for the week. They will be accompanied by a teacher, who is also very eager to learn more about the American school systems.

We have many upcoming spring events - the MS Band Concert, the MS Chorus Concert, the HS Spring Concert, and the Evening of the Arts. Spring sports practices are underway.

We are beginning our transition planning for the 2017-2018 school year. Dates are being arranged for grade 8 visits to the high school to learn more about the Career Academies. I will also be coordinating Superintendent Coffees with each principal so we can tour buildings and answer questions for parents of students who may be advancing to a new building next year.

Springtime is exciting and filled with many distractions. However, we have two and a half months left, and we are committed to continuing to focus on teaching and learning.
