

Interested in Volunteering at NMS?

One of our goals at NMS is to increase the opportunities for parents and the community to become involved in our school. There will be a variety of opportunities throughout the school year to participate in things such as assisting with PBIS and other school-wide events and activities, improving our school building and courtyard, supporting teachers in classrooms or with tasks such as photocopying, and supporting students in ways such as offering cafeteria and recess help.

If you'd like to become an active member of our NMS school community, to whatever extent you're able or interested in, please fill out this form and return it to NMS. ~ Thank you!
