The Northbridge Public Schools is a proud community focused on the education and well-being of ALL students.

We recognize each student as an individual, and we provide creative and innovative learning opportunities that encourage them to use their unique voices and personal strengths to achieve academic and personal success.

Northbridge Public Schools District Strategic Plan 2021-2024

MISSION

NPS students are confident, empathetic and responsible individuals. Inspired by their passions, and prepared by their education, they achieve personal success and contribute to both society and their community in a positive way.

VISION

We believe in instilling a sense of pride in our students

We believe partnerships with all stakeholders are critical to student success

We believe our greatest strengths come from our individual differences

Values

We believe students learn best when engaged in authentic tasks and given choices We believe all students and families are an integral part part of the NPS community

Strategic Objectives

Shared Leadership • Create an environment in which all leaders **include multiple perspectives to collaborate on common goals** and develop **consistent and equitable** practices and expectations that support the alignment of our schools and the success of the entire NPS community.

. Inclusive Culture •Cultivate trusting relationships among all stakeholders, foster open and transparent communication practices, and create **diverse opportunities** to build connections and engage with families and community members in meaningful ways to promote a united and **socially just** NPS community.

Teaching and Learning

• Provide engaging, inclusive and **culturally proficient** learning environments that nurture individual student growth and **close access, academic and opportunity gaps** through effective instructional practices, smooth transitions between grades and buildings, aligned curriculum, and robust student supports.

If we give our students the tools and support to pursue their passions, skills and interests responsibly and practically . . . <u>Then</u> our students will achieve personal success and contribute to the community in a positive way.
